THE BARROW FAMILY OF BOWDON

(First published in The
Barrow Association of
America Quarterly in
1999)

1653 May 15, 1635, **John Barrow**, about 26 years old and from Lancashire, England, sails outbound from Gravesend on the "Plain Joan" for the Virginia Colony. His brother, Thomas a militiaman, had migrated earlier and has been listed in 1623 as "dead at a small six-man outpost at Elizabeth Citie." At this time, there were only 183 English settlers in the entire colony, which was founded in 1607. John was a headright to John Sweete of what is now Isle of Wight and who lived on Lawnes Creek near today's border with Surry County, Virginia. John, like his brother Thomas, was a militiaman and in 1653 he patented 385 acres of land on "South Side of Upper Chippoaks Creek, South Side of James River" for the transportation of eight persons. Then, in 1656, Captain Merriwether assigns 600 acres to John Barrow for his militia service. The Chippoaks land is only a short distance south of the James and is an excellent fishing or "seining" location for the spawning fish from the ocean. Several generations of the Barrows would settle along the beautiful Virginia and North Carolina rivers establishing fisheries and plantations netting the fish on their yearly spawns and smoke and salt them for sale later to the settlers. It is said that John married Mary Blow whose father owned land adjoining his.

b. 1640 **Thomas Barrow (1)** came to the Colony when he was about 20 years old. (The (1) is for our identification purposes.) We know that in 1654 Major Abraham Wood received a grant of land for the importation of 8 persons including Mr. Thomas Barrow from Lancashire, England. The title Mr. indicates that Thomas was a person of considerable status and certainly not an indentured servant. Not a boy off the London streets

We have much evidence but no direct proof, that this Thomas was the son of the above John Barrow and that he came to join his father. We know that both were from Lancashire, that "Thomas Barrow, son of John, purchased 150 acres of land from John and Mary Smith in 1680" and that John and Thomas owned adjoining Chippoaks land. Thomas(1) was a carpenter, and evidently a very good one, as evidenced from an inventory of his estate which shows in addition to land, slaves, live stock and household items, "3 thousand eight penny nails and 2 thousand six penny nails." Nails were a very precious commodity in the early days and we believe that Thomas made them. We know that Thomas was involved with the construction of the famous Bacon's Castle in Surry County, a short distance from the Chippoaks land. The "Castle is one of the oldest brick structures in America and is in fine condition and open to the public today. One can see the magnificent carpentry work of the early artisans and also some of the "nails" possibly made and driven by Thomas Barrow. Thomas appears on a 1680 tithe list to Arthur Allen, the wealthy merchant and owner and designer of the Castle. Some Barrow family researchers believe that Thomas (1) was the first immigrant. He married Elizabeth and they had at least two sons, Thomas and Edmund (some say Simon). Thomas(1) died in 1684 and Elizabeth married George Blow, Jr. in only a few months. They had at least one child, George Blow, III. between Jan 4 and March

Thomas Barrow, SR Other Barrow family researchers believe that Thomas Barrow, SR. son of the above Thomas (1) was the first to come to America but this is highly unlikely unless he came at a very early age along with his father and/or mother. The well known Rev. David Barrow of Kentucky wrote to his cousin James Barrow, brother of our Moses of Georgia in 1817 stating: "I have heard my grandfather say that two lads by the name of Barrow were early emigrants from Britton to the Northern Neck of Virginia but I was never informed of the date nor from what part of Britton they came. One of them went off southerly but to what part I do not remember. The other married and settled in the Northern part of Virginia. Thomas Barrow, my grandfather and the son of one of the above mentioned brothers moved into Southampton on the waters of the Nottaway River and died between 90 and 100 years, the names of sons in order of their birth, as well as my memory serves, were Simon, John and Thomas. Thomas the youngest was your father." The Reverend David clearly states that **Thomas, SR.** was the son of one of the emigrants. (I am confident that the other brother mentioned was a John Barrow who indeed did "go off southerly" and settled in the new lands of North Carolina in Perquimans County.)

Thomas, SR. was indeed a "senior" although he never used the term on official papers including his will. He did name Thomas, "Jur" in his will however. He died sometimes around 1762 at 95 to 100 years old outliving his son Thomas, JR by about a year. He married Elizabeth Horton and lived on land located south of the Nottaway River and near Meherrin River in Southampton County and operated fisheries and farmed. He is listed as a titheable in the

household of George Blow, JR, his step father, in 1693. He also lived and owned land in Surry and Isle of Wight counties and died testate in Southampton. His will named, "my seven children, Simon, **Thomas, Jur.**, John, Elizabeth, Jane, Sarah and Fortune." We have good documentation on his will, numerous land transactions and proof that he was in the George Blow household.

Thomas Barrow, JR was born in Southampton County, VA in 1698. He married his second wife, Elizabeth Atkinson, about 1735 and was living on the south side of Nottaway River. In 1754, Thomas Barrow, JR. received a grant of 215 acres from Lord Granville in Edgecombe County, NC signing his name which was a requirement of Lord Granville for anyone settling on his very large land grants in northern North Carolina. He subsequently owned lands and lived in Halifax and Onslow Counties in North Carolina and died testate in 1761 at his 300-acre plantation located on the banks of New River in Onslow County. This land is now a part of the Camp Lejeune Marine Corps base. He farmed and operated fisheries on the Roanoke, Tar, Nottaway and New Rivers. His wife Elizabeth Atkinson died about a year after Thomas' death leaving three small sons, Jacob, James, and **Moses** and daughter Sally, born after his death, plus an older son, Hosea, by his first wife, Mary Killebrew. The four youngsters were sent to their grandmother Atkinson's in Halifax County where they lived with her and near her son Solomon "On Kekuke Swamp near the old Kekuke Meeting house." Hosea remained on the New River land and when of age. *? Intestate* Jacob operated the fishery on Roanoke River. We have much well-documented information on the family of Thomas, JR. including his will, many land transactions, where he lived and when he was there, plus his father's will. The three youngest boys, Jacob, James, and Moses would all become Revolutionary War soldiers fighting for American Independence.

Moses Barrow, son of Thomas, JR., was born 15 Oct. 1755 "on Fishing Creek" in Edgecombe County, NC. We believe that he possibly was married to a Mildred Powell before marrying Martha Smith in 1790. Martha was the granddaughter to the prominent Drew Smith of NC. Martha and Moses were the parents of Jacob, twins William and Mary Drew, Mildredge Smith and James R..

Moses' father and mother died when he was very young. When older brother Jacob was old enough to take over the inherited fishery on the Roanoke River in Halifax County, N.C. Moses lived with him. He later moved to Edgecombe County and owned several properties there. He moved to Washington County, GA in the very late 1700s on land along Keg Creek in the western edge of the county. This land today is a part of a large kaolin mining operation. He evidently was fairly prosperous as he owned 460 acres and 7 slaves. His wealthy brother James who moved to nearby Baldwin County owned thousands of acres in several counties and 77 slaves. Moses had drawn the Georgia land for his service in the Revolutionary War, having served in Captain Bacot's 10th regiment under Colonel Abraham Sheppard. (NSDAR Patriot Index, Page 40)

Moses died intestate on Dec. 28, 1801 when youngest son "Jimmy" was three days old. We have not been able to locate his grave. His brother James was appointed an executor of the estate and guardian of the older children who went to live with him. Martha married Charles Thompson, a friend of Moses, in only a few months and they, including baby boy "Jimmy", my great-great grandfather, lived near High Shoals, in Walton County, GA. She had several children by her new husband and died in 1812. She is buried in an unmarked grave in the Thompson Family Cemetery near High Shoals. Young James then went to his uncle's home until his brother Jacob became of age and became his guardian.

James R. (Jimmy) Barrow (Reverend) was born on Christmas Day, 1801, three days before the death of his father. As stated previously, he lived with his mother and stepfather until his mother's death in 1812. His older brother Jacob of Milledgeville became his guardian. He became a mechanic by trade and lived in Talbot and Upson counties before moving to Carroll County sometimes around 1842. We know that he was preaching at the Eden Baptist Church near Bowdon very soon afterwards. He had married Lucinda "Lucy" Bivins in Baldwin County in 1825. He and "Lucy" were very religious and he was a part-time preacher before moving to Bowdon. By middle age, he was badly crippled by what in those days was called rheumatism having to walk with the aid of crutches and his hands were badly drawn. They moved to land drawn in the land lottery of 1827 by "Orphans of Moses Barrow." They drew two lots in Carroll County, one in the Smithfield community and one in the Jake community, and a third in or near what is now Coweta County(?). James moved to the Smithfield land but was unable to farm due to his

health and soon moved to the village of Bowdon leaving his oldest son John at the farm. His Bowdon house was where the present Barrow House now stands on West College St. He was active in the Eden Baptist Church south of Bowdon and in 1850 was officially ordained as a Missionary Baptist Church pastor by the Carrollton Church. He was one of the founders of the Bowdon Baptist Church in 1860. He was assigned missionary duty to serve the western part of Georgia and the newly opened lands in eastern Alabama. He made his rounds on horseback and had to be helped on and off his horse. We have several news items of his preaching as far away as Tuskegee, AL which is about 150 miles from Bowdon. He also filled pulpits all around the Bowdon area including those at Indian Creek, Eden, The Tallapoosa Baptist which became the First Baptist Church of Carrollton and Bowdon. His cousin, Chancellor David Barrow of the University of Georgia, wrote that the old man could recite from memory entire chapters of the Bible.

James and Lucy had at least 7 children: Mildred, Martha A., Mary Emily, Sarah Jane, John T., William Henry C. and James R., JR. Mildred and Sarah Jane married sons of Gideon Smith of the Smithfield community and son John married Martha, Gideon's daughter. "Lucy" was burned terribly while working around a wash pot and died a painful death on 21 Dec. 1873. The old preacher lived on until 30 July 1884 living with his son William in Bowdon the latter part of his life. He and "Lucy" are buried in the Bowdon Baptist Church Cemetery.

James R. (Reeves ?) Barrow was the youngest child of the Rev. and "Lucy" Barrow and was born in Bowdon on 31 Oct. 1844. He was a 16-year-old student at Bowdon Collegiate Institute when the Civil War began and became a member of Company B, Cobb's Legion, Infantry. The unit was formed in Bowdon by Charles McDaniel who was President of the Institute as well as the Methodist Protestant preacher. The company took part in most of the major battles in Virginia and suffered tremendous loss of life and limb. Private James R. was wounded in left ankle and foot during the Battle of Crampton's Gap, Maryland on Sept. 14, 1862 when he was not yet 17 years old. He was captured and his left leg amputated by Yankee surgeons. He recovered and was sent to prisons in Maryland and then exchanged and returned home to Bowdon. He served in some capacity in the army around Atlanta drawing pay for at least through 1864. He returned to Bowdon and married Martha S. "Mattie" Holmes on 10 Dec., 1865 at Bowdon. Mattie was the daughter of local black smith Thomas F. and Mary Jo Holmes. He never drew a Confederate pension but did receive money from the state for the purchase of an artificial leg.

James became a very prosperous merchant in Bowdon as well as being half-owner of Victory Mills, a complex consisting of a grist and flour mill, cotton gin, saw mill, tannery and store located on the Little Tallapoosa River east of Bowdon. This mill boasted of having the first circular saw in Western Georgia indicating that they used steam power instead of water power for the saw mill. He and "Mattie" had a son, John William, a daughter Georgia, who was born on Sept. 3, 1868, and an infant who was born on Jan. 1 and died on Feb. 1, 1872. "Mattie" died the following June 10th and on Dec. 5, 1876 little Georgia died. Then four years later on July 11, 1880 James R. died leaving 14 year old John William an orphan. James died testate and named his brother William guardian for his young son. James, "Mattie", Georgia and the infant are buried in the Bowdon Baptist Church Cemetery. It is said that James R. died from TB contracted in the Yankee prison camps.

John William Barrow was born in Bowdon on 5 Sept. 1866 during the reconstruction era of the beaten South to a disabled Rebel soldier father. He was orphaned at the age of 14 and went to live with his Uncle William who was appointed his guardian. He attended school in Bowdon and then entered Mercer University. He returned to Bowdon to enter business. He traded his inherited half-interest in Victory Mills for a store and a considerable amount of property in Bowdon and established a mercantile business on the north side of the main street building the first brick building in town. This building is now part of the corner bank building. He later built six of the brick buildings on the south side of the street and expanded into a general store and even later specializing in hardware. The store became one of the largest and most successful in the area. He was a director of the local bank, director of the railroad and oil mill and was part owner of an unsuccessful pickle factory venture. He was also a trustee of Bowdon College and active in the Baptist Church, the Masonic Lodge and other civic organizations. He became wealthy only to lose everything during the great depression of the 1920s and 30s. With all the disappointments, he maintained his great love of Bowdon and his fellow man, many of whom owed him money which was never repaid. He started several smaller businesses after the hardware store closed and in his last years could be found on the

streets, always wearing a coat and tie and with highly polished shoes, especially on "Second Tuesdays", Bowdon's Trade Day, swapping and selling pocket knives. He was great fun to be around and was Bowdon's greatest booster.

"J. W." married **Martha Ellen Lovvorn** on Christmas Day, 1887 in Bowdon. Ellen was the daughter of the prominent citizen, W. D. Lovvorn, owner of the Lovvorn Mill complex on Indian Creek a mile or so north of Bowdon. Their children were: Otis who married Alice Walker, Roy, Hugh Witt, infant Guy, Gladys who married Mallory "Bubba" Rumble and Frances who married Harvey Jackson. To make ends meet after the business failure, "Miss" Ellen, as she was known, turned the "Barrow House", which they had built around the turn of the century, into a boarding house. It was known for the great food and for a clean and safe home away from home for travelers as well as many of Bowdon's college students and schoolteachers. Ellen died in Dec., 1943 and J. W. lived with his beloved Hugh and Virginia in the Barrow House until his death on 29 July 1951. He and Ellen are buried in the Bowdon City Cemetery.

Hugh Witt Barrow was born in Bowdon on Friday the 13th of January, 1894. He always said that this was bad luck, and maybe it was. He attended Gordon Military Academy in Barnesville where he was a close friend and roommate of his distant cousin, future Georgia governor and senator, Richard Russell. He returned to Bowdon and worked for the family hardware store and was in charge of their two White trucks, hauling all types of goods to-and-from Atlanta. After the store closed, he took the trucks and his two driver friends, "Red" and Lee, and hauled material for building highways in Alabama. Soon, as the depression worsened, the trucks were taken also. He then was shop foreman at Folds Motor Co. in Carrollton and then a furniture salesman in Rockmart. He returned to Bowdon and worked at Sewells for many years and, later he substituted for his son-in-law, John Barr, as a rural mail carrier.

Hugh married **Virginia Mae Trammell** daughter of Thomas Appling and Lelia Johnson Trammell of Bowdon and Five Points, AL on 28 Oct. 1917. They were the parents of Virginia Ellen (Jean) who married John H. Barr, JR, infant Sue, Hugh Will (Bill) who married Bonnie Jeanne Spruill, and David Trammell. "Gin" worked at Sewells and after the death of Hugh on Nov. 10 1950, continued to care for "J. W." until his death. She then struck out on her own and became a housemother at The Church's Home for Girls in Atlanta where she became the trusted "mother" and friend to hundreds of young girls who were coming to the big city from farms and small towns to find jobs. She retired and returned to live out her life in her "little house" in Bowdon next door to the Barrow House and to enjoy her children and grandchildren, her Church and Sunday School, her "As You Like It" Club and her many friends. She died on 21 May 1969 and is buried with Hugh in the Bowdon City Cemetery.

Bill (Hugh Will) and Bonnie moved back to Carroll County after a 54 year absence and settled in Carrollton. (Hope old "J. W." never realizes this as he would come up out of his grave and move me to Bowdon in a hurry, he never liked Carrollton after "they stole the college".) Chemical engineer Bill retired from the DuPont Co. after 40 years service and for the next 10 years or so served as a consultant to several chemical, carpet and textile companies. His last few working years as a consultant were spent in developing the popular worn or distressed look on denim fabrics such as dungarees where he holds several patents.

Bonnie, the daughter of Marvin and Ruth Huddleston Spruill of the Smithfield community, was and is a wonderful mother and a very successful real estate sales lady in Delaware/Pennsylvania and in Dalton, GA.

They have four children: Dr. Hugh, JR, an OB-GYN specialist in Spartanburg, SC; Lew Spruill, an Asst. District Attorney in Columbus; Ann Barrow Harris, Director of the pharmaceutical company Bayer in New London, CT and Rebecca, a Physician's Assistant anesthetist in Houston, TX and ~~five~~ grandchildren.

JOHN BARROW COLONIAL MILITIAMAN

b: 1609 Lancashire, England Sailed to Virginia on the Plaine Joan when he was 26 years old.

d: After 1653 which is the last record I have of him. 44 years old at this time.

We believe that his brother, Thomas a militiaman, had migrated earlier and in 1623 is listed "died of small pox at the 6-man outpost in Elizabeth City." At this time, there were only 83 English settlers in America.

John Barrow was a Head Wright to a Mr. John Sweete of what is now Isle of Write who patented 385 acres south of the James River for the importation of 8 persons including John Barrow we believe.

In 1653, John was assigned 600 acres for his militia service. I believe that he married Mary Blow. The Blow family land bordered his land which was west of Upper Chipoaks Creek.

The Chipoaks Creek land is south of the James River and was an excellent fishing or "seining" location to harvest the fish on their spring spans from the ocean. Several following generations of the Barrows would settle along the beautiful creeks and rivers of Virginia and later in North Carolina establishing fisheries or "seineries" as they called them, along with fine plantations. They smoked or salted the fish for year-round sales. The fish were economical food for the slaves of the Virginia and North Carolina plantations.

The above data on John Barrow is my research alone and I have no definite proof that it is all correct but I have very good evidence that it is. I believe that John Barrow was our first ancestor to arrive in America and that he was indeed the father of our **Thomas "1"**. Thus if so, our line of Barrows go back to **1633** in America.

We believe that our **Thomas "1"** of Lancashire, England, was the son of the above John and that he came to join his father when he "was under 20 years of age." We know that Major Abraham Word received a grant of land for the importation of 8 persons including a **Mr. Thomas Barrow**. Inclusion of the term "Mr." would indicate that Thomas was a person of considerable stature and certainly was not an indentured servant. Thomas "1" purchase land adjoining John Barrow along Chippoaks Creek. He had come to Virginia in **1654**. In addition to being a farmer and fisherman, he was also a skilled carpenter so much so that he was involved in the construction of the famous Bacon's Castle, the first brick house in Virginia and located a short distance from the Chipoaks land in Surry County.

Thomas married Elizabeth ? and they had two sons, our **Thomas SR** and Edward (or Edmund).

Thomas Barrow SR married Elizabeth Horton and they had 7 children. He lived on the Virginia Rivers in Southampton on the Notaway River, and Isle of Write counties. He lived to be **90-100** years old outliving his son **Thomas JR** by a short while.

One son, our **Thomas JR**, was born in Southampton County in 1698 and he married Elizabeth Atkins around 1735. He too, was a planter and fisherman and later drew a large tract from Lord Glanville in North Carolina. One requirement for being qualified to draw from Lord Glanville was that you had to be able to read and write. He finally moved to land on New River in Onslow County, North Carolina. This land is today a part of the Camp Lejeune Marine Corp Base. He died on his plantation on New River leaving 5 children. The oldest, Hosea, was by his first wife a Mrs. Killebrew. His wife Elizabeth died only a year later and the 4 youngest children, 3 boys; Jacob, James and **Moses**, and little Sallys were sent to their grandmother Atkinson. A while later all three of the boys would serve their country in the Revolutionary War.

Moses Barrow, our ancestor, was born on Fishing Creek in Edgecombe County, North Carolina in 1755. We believe that Moses was possibly married to a Mrs. Mildred Powell and that his second wife was Martha Smith, daughter of the well know Drew Smith of North Carolina. After the war he drew 460 acres land in Washington County, Georgia along Keg Creek. He died there on December 28, 1801 when his youngest son, **James "Jimmy" Barrow** was only 3 days old. Martha remarried to a Mr. Charles Thompson and had several children with him. She died when Jimmy was a young boy and the Moses Barrow children went to live with their uncle James Barrow until older brother Jacob became of age to become his guardian.

Jimmy became a mechanic by trade, married Lucy Bivins and lived in Talbot and other Georgia counties. In the 1825 Georgia Land Lottery, Jacob Barrow drew "for orphans of Moses Barrow" two lots of 202 ½ acres in the newly opened Creek Indian lands, one in newly formed Coweta and one in the now Smithfield area of Carroll County which was formed in 1828. James and his family moved to the Carroll County land but he was badly crippled by what was called rheumatism in those days, arthritis today, and was unable to do farm work. He purchased two lots in the Bowdon community and built a cabin there. He and his family had come to Carroll County before 1840 and we know that he preached at the first Baptist Church in Carroll County which was the Eden Baptist Church, established in 1835, and located a short distance below the what would become the town of Bowdon near the Little Tallapoosa River. He also preached at other Baptist Churches around the county. James and Lucy along with other members of Eden were given leave to form the Bowdon Baptist Church in 1860. Eden continued to exist as a church up until around 1900. Rev. James became a circuit riding preacher in the newly opened lands of Alabama which were ceded in 1835.

PEDIGREE CHARTS

To read a Pedigree Chart one multiplies a certain number by 2.

For instance: 1: Hugh Will Barrow X 2 = 2: Hugh Witt Barrow X 2 = 4: John William Barrow X 2 = 8: John Reeves Barrow and so on up the line.

To read backwards: Divide a certain number by 2

For instance: 8: John Reeves Barrow /2 = 4: John William Barrow and so on down the line.

On 11/8/1727 Thomas Horton
made his will in Sunny County
in which he named a daughter,
Elizabeth Barrow (BK 7:839)

Thomas Barrow was living
adjacent to Thomas Horton, SR in
the 1702 Tithable List, though we
have not proved Elizabeth Horton
to have been the wife of
Thomas Barrow. (SR) -

Mr. Bell is a letter to Mr.
Leonard Motz for his application
to The Colonial Dames - she
states " - it now appears to
us that Thomas [SR] married
Elizabeth Horton (see the will of
Thomas Horton, dated 11-8-1727,
probated 8-21-1728 (WB 7:839))
in which he gives his daughter,
Elizabeth Barrow, five shillings".

Other however do have
The wife of Thomas SR to
be Elizabeth Brambley.

Mr. Belle "speculator" in a later
article in the "Quarterly" -
"We have speculated that Robert
R. Brambley may have been
closely related to John Brambley
of Isle of Wight Co., Virginia
who made what appears to ~~be~~ have
been a "Deed of Gift" of 350
Acres for "five shillings" A
total Amount to Thomas Brambley,
JR on 1-10-1740 -

Maybe the first wife of Thomas Jr
was a daughter of John Brambley?

BARROW

JOHN BARROW COLONIAL MILITIAMAN

b: 1609 Lancashire, England Sailed to Virginia on the Plaine Joan when he was 26 years old.

d: After 1653 which is the last record I have of him. 44 years old at this time.

We believe that his brother, Thomas a militiaman, had migrated earlier and in 1623 is listed "died of small pox at the 6-man outpost in Elizabeth City." At this time, there were only 83 English settlers in America.

John Barrow was a Head Wright to a Mr. John Sweete of what is now Isle of Write who patented 385 acres south of the James River for the importation of 8 persons including John Barrow we believe.

In 1653, John was assigned 600 acres for his militia service. I believe that he married Mary Blow. The Blow family land bordered his land which was west of Upper Chipoaks Creek.

The Chipoaks Creek land is south of the James River and was an excellent fishing or "seining" location to harvest the fish on their spring spans from the ocean. Several following generations of the Barrows would settle along the beautiful creeks and rivers of Virginia and later in North Carolina establishing fisheries or "seineries" as they called them, along with fine plantations. They smoked or salted the fish for year-round sales. The fish were economical food for the slaves of the Virginia and North Carolina plantations.

The above data on John Barrow is my research alone and I have no definite proof that it is all correct but I have very good evidence that it is. I believe that John Barrow was our first ancestor to arrive in America and that he was indeed the father of our **Thomas "1"**. Thus if so, our line of Barrows go back to **1633** in America.

We believe that our **Thomas "1"** of Lancashire, England, was the son of the above John and that he came to join his father when he "was under 20 years of age." We know that Major Abraham Word received a grant of land for the importation of 8 persons including a **Mr. Thomas Barrow**. Inclusion of the term "Mr." would indicate that Thomas was a person of considerable stature and certainly was not an indentured servant. Thomas "1" purchase land adjoining John Barrow along Chippoaks Creek. He had come to Virginia in **1654**. In addition to being a farmer and fisherman, he was also a skilled carpenter so much so that he was involved in the construction of the famous Bacon's Castle, the first brick house in Virginia and located a short distance from the Chipoaks land in Surry County.

Thomas married Elizabeth ? and they had two sons, our **Thomas SR** and Edward (or Edmund).

Thomas Barrow SR married Elizabeth Horton and they had 7 children. He lived on the Virginia Rivers in Southampton on the Notaway River, and Isle of Write counties. He lived to be **90-100** years old out living his son **Thomas JR** by a short while.

One son, our **Thomas JR**, was born in Southampton County in 1698 and he married Elizabeth Atkins around 1735. He too, was a planter and fisherman and later drew a large tract from Lord Glanville in North Carolina. One requirement for being qualified to draw from Lord Glanville was that you had to be able to read and write. He finally moved to land on New River in Onslow County, North Carolina. This land is today a part of the Camp Lejeune Marine Corp Base. He died on his plantation on New River leaving 5 children. The oldest, Hosea, was by his first wife a Mrs. Killebrew. His wife Elizabeth died only a year later and the 4 youngest children, 3 boys; Jacob, James and **Moses**, and little Sallys were sent to their grandmother Atkinson. A while later all three of the boys would serve their country in the Revolutionary War.

Moses Barrow, our ancestor, was born on Fishing Creek in Edgecombe County, North Carolina in 1755. We believe that Moses was possibly married to a Mrs. Mildred Powell and that his second wife was Martha Smith, daughter of the well know Drew Smith of North Carolina. After the war he drew 460 acres land in Washington County, Georgia along Keg Creek. He died there on December 28, 1801 when his youngest son, **James "Jimmy" Barrow** was only 3 days old. Martha remarried to a Mr. Charles Thompson and had several children with him. She died when Jimmy was a young boy and the Moses Barrow children went to live with their uncle James Barrow until older brother Jacob became of age to become his guardian.

Jimmy became a mechanic by trade, married Lucy Bivins and lived in Talbot and other Georgia counties. In the 1825 Georgia Land Lottery, Jacob Barrow drew "for orphans of Moses Barrow" two lots of 202 ½ acres in the newly opened Creek Indian lands, one in newly formed Coweta and one in the now Smithfield area of Carroll County which was formed in 1828. James and his family moved to the Carroll County land but he was badly crippled by what was called rheumatism in those days, arthritis today, and was unable to do farm work. He purchased two lots in the Bowdon community and built a cabin there. He and his family had come to Carroll County before 1840 and we know that he preached at the first Baptist Church in Carroll County which was the Eden Baptist Church, established in 1835, and located a short distance below the what would become the town of Bowdon near the Little Tallapoosa River. He also preached at other Baptist Churches around the county. James and Lucy along with other members of Eden were given leave to form the Bowdon Baptist Church in 1860. Eden continued to exist as a church up until around 1900. Rev. James became a circuit riding preacher in the newly opened lands of Alabama which were ceded in 1835.

Comment [H1]:

THE BARROW FAMILY OF BOWDON

By Hugh W. Barrow

May 15, 1635, **John Barrow**, about 26 years old and from Lancashire, England, sails outbound from Gravesend on the "Plain Joan" for the Virginia Colony. His brother, Thomas a militiaman, had migrated earlier and has been listed in 1623 as "dead at a small six-man outpost at Elizabeth Citie." At this time, there were only 183 English settlers in the entire colony, which was founded in 1607. John was a headright to John Sweete of what is now Isle of Wight and who lived on Lawnes Creek near today's border with Surry County, Virginia. John, like his brother Thomas, was a militiaman and in 1653 he patented 385 acres of land on "South Side of Upper Chippoaks Creek, South Side of James River" for the transportation of eight persons. Then, in 1656, Captain Merriwether assigns 600 acres to John Barrow for his militia service. The Chippoaks land is only a short distance south of the James and is an excellent fishing or "seining" location for the spawning fish from the ocean. Several generations of the Barrows would settle along the beautiful Virginia and North Carolina rivers establishing fisheries and plantations netting the fish on their yearly spawns and smoke and salt them for sale later to the settlers. It is said that John married Mary Blow whose father owned land adjoining his.

Thomas Barrow (1) came to the Colony when he was about 20 years old. (The (1) is for our identification purposes.) We know that in 1654 Major Abraham Wood received a grant of land for the importation of 8 persons including Mr. Thomas Barrow from Lancashire, England. The title Mr. indicates that Thomas was a person of considerable status and certainly not an indentured servant.

We have much evidence but no direct proof, that this Thomas was the son of the above John Barrow and that he came to join his father. We know that both were from Lancashire, that "Thomas Barrow, son of John, purchased 150 acres of land from John and Mary Smith in 1680" and that John and Thomas owned adjoining Chippoaks land. Thomas(1) was a carpenter, and evidently a very good one, as evidenced from an inventory of his estate which shows in addition to land, slaves, live stock and household items, "3 thousand eight penny nailes and 2 thousand six penny nailes." Nails were a very precious commodity in the early days and we believe that Thomas made them. We know that Thomas was involved with the construction of the famous Bacon's Castle in Surry County, a short distance from the Chippoaks land. The "Castle is one of the oldest brick structures in America and is in fine condition and open to the public today. One can see the magnificent carpentry work of the early artisans and also some of the "nailes" possibly made and driven by Thomas Barrow. Thomas appears on a 1680 tithe list to Arthur Allen, the wealthy merchant and owner and designer of the Castle. Some Barrow family researchers believe that Thomas (1) was the first immigrant. He married Elizabeth and they had at least two sons, Thomas and Edmund (some say Simon). Thomas(1) died in 1684 and Elizabeth married George Blow, Jr. in only a few months. They had at least one child, George Blow, III.

Thomas Barrow, SR Other Barrow family researchers believe that Thomas Barrow, SR. son of the above Thomas (1) was the first to come to America but this is highly unlikely unless he came at a very early age along with his father and/or mother. The well known Rev. David Barrow of Kentucky wrote to his cousin James Barrow, brother of our Moses of Georgia in 1817 stating: "I have heard my grandfather say that two lads by the name of Barrow were early emigrants from Britton to the Northern Neck of Virginia but I was never informed of the date nor from what part of Britton they came. One of them went off southerly but to what part I do not remember. The other married and settled in the Northern part of Virginia. Thomas Barrow, my grandfather and the son of one of the above mentioned brothers moved into Southampton on the waters of the Nottaway River and died between 90 and 100 years, the names of sons in order of their birth, as well as my memory serves, were Simon, John and Thomas. Thomas the youngest was your father." The Reverend David clearly states that **Thomas, SR.** was the son of one of the emigrants. (I am confident that the other brother mentioned was a John Barrow who indeed did "go off southerly" and settled in the new lands of North Carolina in Perquimans County.)

Thomas, SR. was indeed a "senior" although he never used the term on official papers including his will. He did name Thomas, "Jur" in his will however. He died sometimes around 1762 at 95 to 100 years old outliving his son Thomas, JR by about a year. He married Elizabeth Horton and lived on land located south of the Nottaway River and near Meherrin River in Southampton County and operated fisheries and farmed. He is listed as a titheable in the

household of George Blow, JR, his step father, in 1693. He also lived and owned land in Surry and Isle of Wight counties and died testate in Southampton. His will named, "my seven children, Simon, **Thomas, Jur.**, John, Elizabeth, Jane, Sarah and Fortune." We have good documentation on his will, numerous land transactions and poof that he was in the George Blow household.

Thomas Barrow, JR was born in Southampton County, VA in 1698. He married his second wife, Elizabeth Atkinson, about 1735 and was living on the south side of Nottaway River. In 1754, Thomas Barrow, JR. received a grant of 215 acres from Lord Granville in Edgecombe County, NC signing his name which was a requirement of Lord Granville for anyone settling on his very large land grants in northern North Carolina. He subsequently owned lands and lived in Halifax and Onslow Counties in North Carolina and died testate in 1761 at his 300-acre plantation located on the banks of New River in Onslow County. This land is now a part of the Camp Lejeune Marine Corps base. He farmed and operated fisheries on the Roanoke, Tar, Nottaway and New Rivers. His wife Elizabeth Atkinson died about a year after Thomas' death leaving three small sons, Jacob, James, and **Moses** and daughter Sally, born after his death, plus an older son, Hosea, by his first wife, Mary Killebrew. The four youngsters were sent to their grandmother Atkinson's in Halifax County where they lived with her and near her son Solomon "On Kekuke Swamp near the old Kekuke Meeting house." Hosea remained on the New River land and when of age, Jacob operated the fishery on Roanoke River. We have much well-documented information on the family of Thomas, JR. including his will, many land transactions, where he lived and when he was there, plus his father's will. The three youngest boys, Jacob, James, and Moses would all become Revolutionary War soldiers fighting for American Independence.

Moses Barrow, son of Thomas, JR., was born 15 Oct. 1755 "on Fishing Creek" in Edgecombe County, NC. We believe that he possibly was married to a Mildred Powell before marrying Martha Smith in 1790. Martha was the granddaughter to the prominent Drew Smith of NC. Martha and Moses were the parents of Jacob, twins William and Mary Drew, Mildredge Smith and James R..

Moses' father and mother died when he was very young. When older brother Jacob was old enough to take over the inherited fishery on the Roanoke River in Halifax County, N.C. Moses lived with him. He later moved to Edgecombe County and owned several properties there. He moved to Washington County, GA in the very late 1700s on land along Keg Creek in the western edge of the county. This land today is a part of a large kaolin mining operation. He evidently was fairly prosperous as he owned 460 acres and 7 slaves. His wealthy brother James of nearby Baldwin County owned thousands of acres and 77 slaves. Moses had drawn the Georgia land for his service in the Revolutionary War, having served in Captain Bacot's 10th regiment under Colonel Abraham Sheppard. (NSDAR Patriot Index, Page 40)

Moses died intestate on Dec. 28, 1801 when youngest son "Jimmy" was three days old. We have not been able to locate his grave. His brother James was appointed an executor of the estate and guardian of the older children who went to live with him. Martha married Charles Thompson, a friend of Moses, in only a few months and they lived near High Shoals, in Walton County, GA. She had several children by her new husband and died in 1812. She is buried in an unmarked grave in the Thompson Family Cemetery near High Shoals. Young James then went to his uncle's home until his brother Jacob became of age and became his guardian.

James R. (Jimmy) Barrow (Reverend) was born on Christmas Day, 1801, three days before the death of his father. As stated previously, he lived with his mother and stepfather until his mother's death in 1812. His older brother Jacob of Milledgeville became his guardian. He became a mechanic by trade and lived in Talbot and Upson counties before moving to Carroll County sometimes before 1840. We know that he was preaching at the Eden Baptist Church near Bowdon before 1840. He had married Lucinda "Lucy" Bivins in Baldwin County in 1825. He and "Lucy" were very religious and he was a part-time preacher before moving to Bowdon. By middle age, he was badly crippled by what in those days was called rheumatism having to walk with the aid of crutches and his hands were badly drawn. They moved to land drawn in the land lottery of 1827 by "Orphans of Moses Barrow." They drew two lots in Carroll County, one in the Smithfield community and one in the Jake community, and a third in or near what is now Coweta County(?). James moved to the Smithfield land but was unable to farm due to his health and soon moved to the village of Bowdon leaving his oldest son John at the farm. His Bowdon house was where the

present Dr. Smith house stands on West College St. He was active in the Eden Baptist Church south of Bowdon and in 1850 was officially ordained as a Missionary Baptist Church pastor by the Carrollton Church. He was one of the founders of the Bowdon Baptist Church in 1860. He was assigned missionary duty to serve the western part of Georgia and the newly opened lands in eastern Alabama. He made his rounds on horseback and had to be helped on and off his horse. We have several news items of his preaching as far away as Tuskegee, AL which is about 150 miles from Bowdon. He also filled pulpits all around the Bowdon area including those at Indian Creek, Eden and Bowdon. His cousin, Chancellor David Barrow of the University of Georgia, wrote that the old man could recite from memory entire chapters of the Bible.

James and Lucy had at least 7 children: Mildred, Martha A., Mary Emily, Sarah Jane, John T., William Henry C. and James R., JR. Mildred and Sarah Jane married sons of Gideon Smith of the Smithfield community and son John married Martha, Gideon's daughter. "Lucy" was burned terribly while working around a wash pot and died a painful death on 21 Dec. 1873. The old preacher lived on until 30 July 1884 living with his son William in Bowdon the latter part of his life. He and "Lucy" are buried in the Bowdon Baptist Church Cemetery.

James R. (Reeves ?) Barrow was the youngest child of the Rev. and "Lucy" Barrow and was born in Bowdon on 31 Oct. 1844. He was a 16-year-old student at Bowdon Collegiate Institute when the Civil War began and became a member of Company B, Cobb's Legion, Infantry. The unit was formed in Bowdon by Charles McDaniel who was President of the Institute as well as the Methodist Protestant preacher. The company took part in most of the major battles in Virginia and suffered tremendous loss of life and limb. Private James R. was wounded in left ankle and foot during the Battle of Crampton's Gap, Maryland on Sept. 14, 1862. He was captured and his left leg amputated by Yankee surgeons. He recovered and was sent to prisons in Maryland and then exchanged and returned home to Bowdon. He served in some capacity in the army around Atlanta drawing pay for at least through 1864. He returned to Bowdon and married Martha S. "Mattie" Holmes on 10 Dec. 1865 at Bowdon. Mattie was the daughter of local black smith Thomas F. and Mary Jo Holmes. He never drew a Confederate pension but did receive money from the state for the purchase of an artificial leg.

James became a very prosperous merchant in Bowdon as well as being half-owner of Victory Mills, a complex consisting of a grist and flour mill, cotton gin, saw mill, tannery and store located on the Little Tallapoosa River east of Bowdon. This mill boasted of having the first circular saw in Western Georgia indicating that they used steam power instead of water power for the saw mill. He and "Mattie" had a son, John William, a daughter Georgia, who was born on Sept. 3, 1868, and an infant who was born on Jan. 1 and died on Feb. 1, 1872. "Mattie" died the following June 10th and on Dec. 5, 1876 little Georgia died. Then four years later on July 11, 1880 James R. died leaving 14 year old John William an orphan. James died testate and named his brother William guardian for his young son. James, "Mattie", Georgia and the infant are buried in the Bowdon Baptist Church Cemetery. It is said that James R. died from TB contracted in the Yankee prison camps.

John William Barrow was born in Bowdon on 5 Sept. 1866 during the reconstruction era of the beaten South to a disabled Rebel soldier father. He was orphaned at the age of 14 and went to live with his Uncle William who was appointed his guardian. He attended school in Bowdon and then entered Mercer University. He returned to Bowdon to enter business. He traded his inherited half-interest in Victory Mills for a store and a considerable amount of property in Bowdon and established a mercantile business on the north side of the main street building the first brick building in town. This building is now part of the corner bank building. He later built six of the brick buildings on the south side of the street and expanded into a general store and even later specializing in hardware. The store became one of the largest and most successful in the area. He was a director of the local bank, director of the railroad and oil mill and was part owner of an unsuccessful pickle factory venture. He was also a trustee of Bowdon College and active in the Baptist Church, the Masonic Lodge and other civic organizations. He became wealthy only to lose everything during the great depression of the 1920s and 30s. With all the disappointments, he maintained his great love of Bowdon and his fellow man, many of whom owed him money which was never repaid. He started several smaller businesses after the hardware store closed and in his last years could be found on the streets, always wearing a coat and tie and with highly polished shoes, especially on "Second Tuesdays", Bowdon's Trade Day, swapping and selling pocket knives. He was great fun to be around and was Bowdon's greatest booster.

"J. W." married **Martha Ellen Lovvorn** on Christmas Day, 1887 in Bowdon. Ellen was the daughter of the prominent citizen, W. D. Lovvorn, owner of the Lovvorn Mill complex on Indian Creek a mile or so north of Bowdon. Their children were: Otis who married Alice Walker, Roy, Hugh Witt, infant Guy, Gladys who married Mallory "Bubba" Rumble and Frances who married Harvey Jackson. To make ends meet after the business failure, **"Miss" Ellen**, as she was known, turned the "Barrow House", which they had built around the turn of the century, into a boarding house. It was known for the great food and for a clean and safe home away from home for travelers as well as many of Bowdon's college students and schoolteachers. Ellen died in Dec., 1943 and J. W. lived with his beloved Hugh and Virginia in the Barrow House until his death on 29 July 1951. He and Ellen are buried in the Bowdon City Cemetery.

Hugh Witt Barrow was born in Bowdon on Friday the 13th of January, 1894. He always said that this was bad luck, and maybe it was. He attended Gordon Military Academy in Barnesville where he was a close friend and roommate of his distant cousin, future Georgia governor and senator, Richard Russell. He returned to Bowdon and worked for the family hardware store and was in charge of their two White trucks, hauling all types of goods to-and-from Atlanta. After the store closed, he took the trucks and his two driver friends, "Red" and Lee, and hauled material for building highways in Alabama. Soon, as the depression worsened, the trucks were taken also. He then was shop foreman at Folds Motor Co. in Carrollton and then a furniture salesman in Rockmart. He returned to Bowdon and worked at Sewells for many years and, later he substituted for his son-in-law, John Barr, as a rural mail carrier.

Hugh married **Virginia Mae Trammell** daughter of Thomas Appling and Lelia Johnson Trammell of Bowdon and Five Points, AL on 28 Oct. 1917. They were the parents of Virginia Ellen (Jean) who married John H. Barr, JR, infant Sue, Hugh Will (Bill) who married Bonnie Jeanne Spruill, and David Trammell. "Gin" worked at Sewells and after the death of Hugh on Nov. 10 1950, continued to care for "J. W." until his death. She then struck out on her own and became a housemother at The Church's Home for Girls in Atlanta where she became the trusted "mother" and friend to hundreds of young girls who were coming to the big city from farms and small towns to find jobs. She retired and returned to live out her life in her "little house" in Bowdon next door to the Barrow House and to enjoy her children and grandchildren, her Church and Sunday School, her "As You Like It" Club and her many friends. She died on 21 May 1969 and is buried with Hugh in the Bowdon City Cemetery.

Bill (Hugh Will) and Bonnie moved back to Carroll County after a 54 year absence and settled in Carrollton. (Hope old "J. W." never realizes this as he would come up out of his grave and move me to Bowdon in a hurry, he never liked Carrollton after "they stole the college".) Chemical engineer Bill retired from the DuPont Co. after 40 years service and for the next 10 years or so served as a consultant to several chemical, carpet and textile companies. His last few working years as a consultant were spent in developing the popular worn or distressed look on denim fabrics such as dungarees where he holds several patents.

Bonnie, the daughter of Marvin and Ruth Huddleston Spruill of the Smithfield community, was and is a wonderful mother and a very successful real estate sales lady in Delaware/Pennsylvania and in Dalton, GA.

They have four children: Dr. Hugh, JR, an OB-GYN specialist in Spartanburg, SC; Lew Spruill, Attorney in Columbus; Ann Barrow Harris, Director of the pharmaceutical company Bayer in New London, CT and Rebecca, a Physician's Assistant anesthetist in Houston, TX and five grandchildren.

BARROW DNA

HAPLOGROUP R1B (M343)

Your Y chromosome results identify you as a member of haplogroup *R1b*, a lineage defined by a genetic marker called *M343*. This haplogroup is the final destination of a genetic journey that began some 60,000 years ago with an ancient Y chromosome marker called *M168*.

The very widely dispersed *M168* marker can be traced to a single individual—"Eurasian Adam." This African man, who lived some 31,000 to 79,000 years ago, is the common ancestor of every non-African person living today. His descendants migrated out of Africa and became the only lineage to survive away from humanity's home continent.

Population growth during the Upper Paleolithic era may have spurred the *M168* lineage to seek new hunting grounds for the plains animals crucial to their survival. A period of moist and favorable climate had expanded the ranges of such animals at this time, so these nomadic peoples may have simply followed their food source.

Improved tools and rudimentary art appeared during this same epoch, suggesting significant mental and behavioral changes. These shifts may have been spurred by a genetic mutation that gave "Eurasian Adam's" descendants a cognitive advantage over other contemporary, but now extinct, human lineages.

Some 90 to 95 percent of all non-Africans are descendants of the second great human migration out of Africa, which is defined by the marker *M89*.

M89 first appeared 45,000 years ago in Northern Africa or the Middle East. It arose on the original lineage (*M168*) of "Eurasian Adam," and defines a large inland migration of hunters who followed expanding grasslands and plentiful game to the Middle East.

Many people of this lineage remained in the Middle East, but others continued their movement and followed the grasslands through Iran to the vast steppes of Central Asia. Herds of buffalo, antelope, woolly mammoths, and other game probably enticed them to explore new grasslands.

With much of Earth's water frozen in massive ice sheets, the era's vast steppes stretched from eastern France to Korea. The grassland hunters of the *M89* lineage traveled both east and west along this steppe "superhighway" and eventually peopled much of the continent.

A group of *M89* descendants moved north from the Middle East to Anatolia and the Balkans, trading familiar grasslands for forests and high country. Though their numbers were likely small, genetic traces of their journey are still found today.

Some 40,000 years ago a man in Iran or southern Central Asia was born with a unique genetic marker known as *M9*, which marked a new lineage diverging from the *M89* group. His descendants spent the next 30,000 years populating much of the planet.

Most residents of the Northern Hemisphere trace their roots to this unique individual, and carry his defining marker. Nearly all North Americans and East Asians have the *M9* marker, as do most Europeans and many Indians. The haplogroup defined by *M9*,

K, is known as the Eurasian Clan.

This large lineage dispersed gradually. Seasoned hunters followed the herds ever eastward, along a vast belt of Eurasian steppe, until the massive mountain ranges of south central Asia blocked their path.

The Hindu Kush, Tian Shan, and Himalaya, even more formidable during the era's ice age, divided eastward migrations. These migrations through the "Pamir Knot" region would subsequently become defined by additional genetic markers.

The marker *M45* first appeared about 35,000 to 40,000 years ago in a man who became the common ancestor of most Europeans and nearly all Native Americans. This unique individual was part of the *M9* lineage, which was moving to the north of the mountainous Hindu Kush and onto the game-rich steppes of Kazakhstan, Uzbekistan, and southern Siberia.

The *M45* lineage survived on these northern steppes even in the frigid Ice Age climate. While big game was plentiful, these resourceful hunters had to adapt their behavior to an increasingly hostile environment. They erected animal skin shelters and sewed weathertight clothing. They also refined the flint heads on their weapons to compensate for the scarcity of obsidian and other materials.

The intelligence that allowed this lineage to adapt and thrive in harsh conditions was critical to human survival in a region where no other hominids are known to have survived.

Members of haplogroup *R* are descendents of Europe's first large-scale human settlers. The lineage is defined by Y chromosome marker *M173*, which shows a westward journey of *M45*-carrying Central Asian steppe hunters.

The descendents of *M173* arrived in Europe around 35,000 years ago and immediately began to make their own dramatic mark on the continent. Famous cave paintings, like those of Lascaux and Chauvet, signal the sudden arrival of humans with artistic skill. There are no artistic precedents or precursors to their appearance.

Soon after this lineage's arrival in Europe, the era of the Neandertals came to a close. Genetic evidence proves that these hominids were not human ancestors but an evolutionary dead end. Smarter, more resourceful human descendents of *M173* likely outcompeted Neandertals for scarce Ice Age resources and thus heralded their demise.

The long journey of this lineage was further shaped by the preponderance of ice at this time. Humans were forced to southern refuges in Spain, Italy, and the Balkans. Years later, as the ice retreated, they moved north out of these isolated refuges and left an enduring, concentrated trail of the *M173* marker in their wake.

Today, for example, the marker's frequency remains very high in northern France and the British Isles—where it was carried by *M173* descendents who had weathered the Ice Age in Spain.

Members of haplogroup *R1b*, defined by *M343* are the direct descendents of Europe's first modern humans—known as the Cro-Magnon people.

Cro-Magnons arrived in Europe some 35,000 years ago, during a time when Neandertals still lived in the region. *M343*-carrying peoples made woven clothing and constructed huts to withstand the frigid climes of the Upper Paleolithic era. They used relatively advanced tools of stone, bone, and ivory. Jewelry, carvings, and intricate, colorful cave paintings bear witness to the Cro Magnons' surprisingly advanced culture during the last glacial age.
