1850

***** FOREWORD *****

The Carroll County Georgia census was taken between the dates of 5 August and 10 November, 1850 by T. S. Martin, "Assistant Marshal". All of Carroll County was enumerated as the Eleventh District. At that time, the county was composed of all the area of the present county plus the southern half of Haralson County, which was formed in 1856, and the portion of Douglas County which lies west of the Chattahoochee River.

Much effort has been made to transcribe and record this census as correctly as possible. However, the hand writing of this census has been very difficult to read and some of the pages are blurred or faded. Where there was doubt as to the correct reading of names or dates, the name is followed by a question mark or is underscored. Also, it is believed that in some instances incorrect data was given to the census taker. Considering these factors, it is highly possible that mistakes have been made, for which we apologize.

The letter "m" after the age of a person denotes "male", "f", "female". The states of birth are abbreviated as GA, AL, SC, NC, etc.

It is the aim of the society and the transcribers to present this publication for the benefit of the many people who had roots in Carroll County, and the historians who might be interested in its early families. We hope that it will be found both interesting and helpful to the people who are descendants of the citizens of early Carroll who are now scattered over the United States.

Susan Mann (wife of Gabriel Spruill) was
daughter of James Peeler "Happy Luck"
Stephenson -

J. W.

? Susan + Gabriel's daughter Susan^A (b 1858)
evidently married J. W. Stephenson -

'Zach' Spruill (Bonnie's great grandfather) married

ShBtMk	Shoe & boot maker	WksTyd	Works in tanyard
Sh Mkg	Shoemaking	WlCrdg	Wool carding
Sh Mkr	Shoemaker	WtchCM	Watchman in cottonmill

Infant names crossed out.

The reason why the names of some infants have been crossed out by the enumerator is that they were born after the beginning day of the Census. It is interesting to note that those children have still been listed by the enumerator, particularly the one who is "ten minutes old." These names should be of interest to the genealogist, and the descendants of these families.

Indexing.

All heads of households are listed in the Index; their spouse, children, and grandchildren are not listed. All persons in the same household having a different surname from the head of the household are in the Index. If there is a question that a person in the same household might not be the spouse, child, or grandchild, that person's name is in the Index. This makes the Index quite extensive, but it is done this way to facilitate your finding the names.

Helpful Hints:

To help you in finding what you want in this record, the Districts are on Page 149, as well as the dates the different pages were enumerated. These are placed just before the Index for ease of reading. Also, the Districts are placed on each page in the general body of this book. On Page 172 we have also given you some aids in reading the microfilm on this 1870 Census.

Did you know that -

Carroll County had its own triplets in 1870? -- The one-year-old Polly Ann, Mollie Ann, and Dolly Ann McWhorter, shown on Page 86!
